Gentle Dove Farm's June clinics were enthusiastically reviewed! Starting out with a demonstration with Shamrock (his debut), the crowd was applauding as he stepped through the complex course. We even chased after a fleeing felon!

Basic Obstacles on the first day gave the riders the grounding they needed to proceed to the next day with Advanced Obstacles. We even had some help from Mother Nature to challenge us (thunder and lightning) and the horses stood in line inside like Troopers through it all.

The Advanced Obstacle riders had fun with the tube man, a water pit, noodle wall, tunnels, alpaca, and more. They were up for the challenge and we received some superlative evaluations for the weekend that included:

"I have to be honest, when I walked into the indoor and saw all those stations set up I thought oh no, I may be in for a crazy ride today . . . I was glad you had it for the demo and removed most before we brought our horses in the ring the first time. I never would have believed in my wildest dreams that my horse would have actually done all of those things by the end of the first day. I was astounded!" Sharon

"That clinic changed our lives. Thank you from the bottom of my heart and horses." Terry

"I came away with strategies to apply to whatever obstacles we might encounter (in addition to some general good horsemanship tips), rather than specifically how to open a gate, carry flag, or other specific task/trick. To me, that is so much more valuable in the long run." Sarah

"This was one of the highlights of my life!" Christina

The Images by Sorrels Photography are fabulous and capture the spirit, training versatility, and fun the riders had at these two clinics! Click here for Sorrell Photography highlights of the [June 11th Basic Obstacle Clinic](#) and [June 12th Advanced Obstacle Clinic](#)!
